# PAC Surface Mount PIN Reader

## Features

The PAC surface mount PIN reader is highly durable and has the added security of a Personal Identification Number (PIN) which makes it particularly suitable for high security applications.

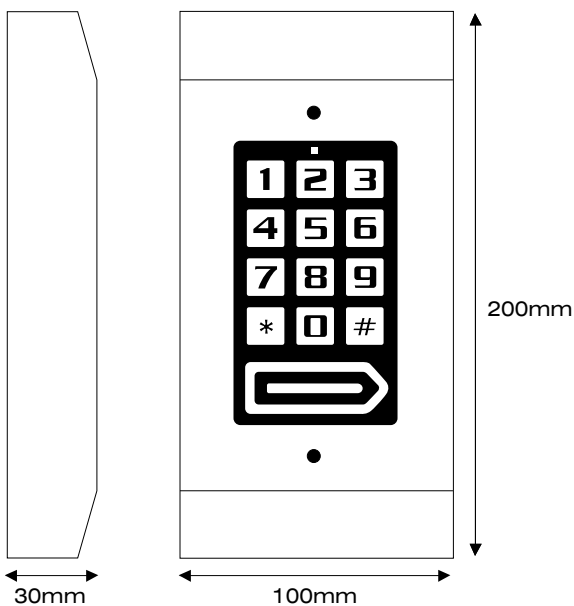

The ten digit rigid membrane keypad with sounder feedback and integral PAC proximity reader has been incorporated into an attractively styled stainless steel/brass housing, which is suitable for both internal and external use. It also has a visual target area suitable for card or key presentation.

To gain access the user must present a valid PAC ID device to the reader and enter a four digit PIN number to gain access.

## Specification

**Maximum reading range:**  
PAC surface mount PIN reader 1.5cm\*

\*Read range can be affected by mounting the reader directly on or close to metallic surfaces, if in doubt contact PAC for suitability for your application.

### Dimensions:

H: 200mm L: 100mm D: 30mm

### Weight:

600g

### Operating Temperature:

-40° to 50°C

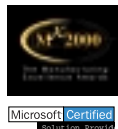

### Packaging:

Pre-packed

### Part Numbers:

20357 - brass

20361 - stainless steel
